Senior Product Designer / Design Lead

PROFESSIONAL SUMMARY

Senior Product Designer and Design Lead with **12+ years of experience** designing and scaling complex **B2B and B2C SaaS platforms**. Proven ability to **own end-to-end UX**, build **scalable design systems**, and **lead designers through mentorship and delivery**. Known for translating ambiguity into clear, buildable product experiences.

CORE SKILLS

- Product & UX Leadership
- End-to-End Product Design (Discovery to Delivery)
- SaaS & Platform UX
- Design Systems & Accessibility
- Information Architecture & Service Design
- User Research & Validation
- Data-Driven UX & OKRs
- Design Mentorship & Hiring

TOOLS

- Figma, Sketch, Adobe XD, Adobe creative suite
- Confluence, Miro, Maze, Firebase, Usertesting.com

AI-assisted tools

- Anti-Gravity, Claude code, Emergent, Code-ex
- Storybook, Appwrite, Replit, Cursor, Lovable

EXPERIENCE

TOYOTA CONNECTED

as Senior Product Designer / Design Lead

from February 2021 to Present

- **Drove 60% increase in product engagement** across Toyota i-Connect (B2C) and Lexus consumer apps by redesigning core user journeys, introducing personalization, contextual smart automation, and significantly reducing friction in remote vehicle control, service booking, and vehicle health monitoring flows.
- **Delivered INFLEET Toyota's B2B fleet management SaaS platform** from 0 to production, enabling fleet operators to manage localized Indian operations, run complex enterprise workflows, and make faster data-informed decisions all within a single consistent experience.
- **Created and scaled Toyota's first fleet-focused design system** (40+ production components), establishing unified UI patterns, accessibility standards (WCAG AA), and interaction behaviors across web, tablet and mobile.
- **Enabling ~30% faster design-to-development handoff** and much higher consistency across TCIN products.
- **Led end-to-end UX ownership** for high-stakes smart mobility features (remote start/stop, guest driver permissions, real-time diagnostics, predictive service scheduling) while successfully translating complex technical constraints and regulatory needs into intuitive, trustworthy user experiences.
- **Grew and mentored a cross-functional design pod** of 3 to 5 designers (FTEs + contractors), delivering high-quality work through regular critiques, pair-design sessions, delivery oversight, and close collaboration with frontend engineering consistently shipping on time.
- Mentored designers and **guided UX researchers across global teams**, conducting knowledge-transfer (KT) sessions, design walkthroughs, and research alignment reviews to ensure consistency with design intent.

Key Measurable Business & Experience Impact:

- +60% product engagement (Toyota i-Connect & Lexus App) through flow optimization, personalization & proactive smart features
- ~30% reduction in design → engineering turnaround time via design system adoption and tighter cross-functional alignment.

WALLSTREET ENGLISH

as UX Designer / Design Lead from September 2018 to February 2021, 2.5^{Yrs}

- **Increased global course completion rates by 36%** by redesigning the core digital classroom and learning experience simplifying navigation, reducing cognitive load, and creating more intuitive, motivating learner flows across 20+ countries and multiple languages.
- **Built and rolled out a modular, scalable UI pattern library** used across web & mobile significantly decreasing design rework, enforcing visual & interaction consistency, and accelerating feature delivery in a highly fragmented, multi-region product.
- **Led end-to-end UX strategy, research and delivery** for a large-scale global learning management platform conducting usability testing, interviews, heuristic evaluations and iterative validation in diverse cultural and linguistic contexts.
- **Acted as design hiring & quality gatekeeper** interviewed, assessed and helped onboard designers while maintaining consistent quality bar across distributed teams.
- **Mentored designers and researchers globally** through structured critiques, knowledge-sharing sessions, research alignment reviews and live project guidance visibly raising overall design maturity and cross-team collaboration.

Key Business & Product Impact (across roles):

- **+36% course completion rate** in global language learning platform
- Created & scaled enterprise-grade design systems adopted across consumer + B2B products
- Delivered localized, accessible, multi-platform experiences for millions of users worldwide

EARLIER EXPERIENCE (SUMMARY)

SPi-GLOBAL as **UX Designer**

from April 2017 to August 2018, 1.5^{Yrs}

Contributed to UX design for publishing platforms and gamified learning products.

DEXLER

as Media Developer.

from April 2014 to March 2017, 3^{Yrs}

Designed multilingual e-learning products, HTML5 web apps, and interactive media.

LASERWORDS

as Graphic Designer

from June 2011 to May 2012, 1^{Yr}

Earlier experience in graphic and web design.

EDUCATION & CERTIFICATIONS

Diploma in Electronics & Communication Engineering

from Jun 2005 to Apr 2008, 3^{Yrs}

Sri Sai Ram Polytechnic College

CERTIFICATIONS

- [Human-Computer Interaction \(HCI\) for AI Systems Design \(Cambridge University\)](#)
- [UX Management: Strategy & Tactics \(IDF\)](#)
- [Conducting Usability Testing \(IDF\)](#)
- [Change Management \(O° REILLY\)](#)
