

RAMKUMAR GANESH

Sr. Product Designer | UX Leader |

Scalable Systems Thinker | AI & Data-Driven UX

📍 Chennai, Tamilnadu, India | ✉ ramkumargd01@gmail.com | ☎ +91-9176750625 |

🌐 www.ramkumarux.com | 💻 linkedin.com/in/ramkumarux

Innovative UX leader with 12+ years of global experience driving impactful design strategies for B2C and B2B digital products across smart mobility, SaaS, EdTech, and automotive ecosystems. Expert in aligning product vision with cross-functional teams and leveraging AI, data-driven research, and inclusive design principles to deliver outstanding business and user outcomes.

Specialities

- **Building Design systems** - Recognized for building scalable design systems from the ground up, translating complex business goals into intuitive, measurable user experiences.
- **Data-Driven Designs** - My work is grounded in research, empowered by data, and focused on delivering measurable outcomes—such as a 60% engagement lift, faster design-to-dev cycles, and fleet-wide product adoption.
- **Delivering High-Impact UX Solutions**- Actively shaping UX strategy, mentoring teams, and driving innovation through AI-first design, personalization algorithms, and inclusive accessibility frameworks.

PROFESSIONAL SKILLS

Design Leadership

- UX Program Management & Articulating Roadmap
- Executive Stakeholder Management & Partnership
- Cross-functional Stakeholder Alignment (Product, Engineering, Data, Business)
- DesignOps Implementation & Process Optimization
- Org-wide UX Evangelism & Culture Building
- Mentoring, Team Building & Talent Uplift

AI-Driven UX & Personalization

- Human-Centered AI Design
- Ethical AI Advocacy
- AI-Driven User Insights
- UX Personalization Algorithms
- Prompt Engineering
- AI-First Accessibility

Case Studies

- [Interaction design for AI](#)

EXPERIENCE

Sr. Product Designer

TOYOTA CONNECTED

from Feb 2021 to Present

Spearheading UX strategy, scalable design systems, and AI-integrated user experiences across Toyota's Smart Mobility, multiple SaaS products & ecosystem (i-Connect, INFLEET, Manufacturing & spend based Analytic SaaS products).

Led UX for Toyota i-Connect & INFLEET

- Led end-to-end UX for B2C & B2B platforms, driving product innovation and measurable business impact. Designed an intuitive **smart mobility experience** with remote operations, guest driver controls, service scheduling, and real-time vehicle health insights for Toyota & Lexus.
- Built **INFLEET**, a **B2B SaaS fleet management platform**, addressing **localized UX challenges, fleet tracking, and workflow automation** for fleet operators & enterprise users.
- Created **role-based, data science-driven dashboards** to visualize vehicle health, fleet utilization, and real-time analytics, ensuring **actionable insights at scale**.

Established Toyota's First Fleet Design System

- Developed Toyota's first **fleet-specific design system**, standardizing **branding, typography, accessibility**, and **40+ reusable components** across mobile, Tablets, smartwatch, and web. Applied **atomic design principles**, for a cohesive, scalable UX across vehicle models & fleet services.

Aligned UX with Engineering & AI Strategy

- Leveraged **qualitative & quantitative research (SUS, Analytics, moderated testing)** to optimize usability and retention improvements. Collaborated with **engineering/data leads** to embed UX into AI infrastructure and predictive analytics; **leveraged qual/quant research** for continuous improvement.

Business & User Impact:

- **60% increase in engagement** by optimizing **UX flows, personalization, and smart automation**.
- **Scalable, adaptable fleet UX system**, driving higher **adoption & operational efficiency**.
- **30% faster design-to-development cycles**, enabling rapid feature rollouts & collaboration.

PROFESSIONAL SKILLS

Strategic UX

- Business-to-UX Outcome Mapping
- Executive Design Thinking Facilitation
- Outcome-Driven Roadmapping
- AI/ML & Data-Driven Innovation
- OKRs & Change Management for Distributed Teams

Advanced Research, Systems & Accessibility

- End-to-End User Research Leadership
 - Quant+Qual
 - Analytics
 - Service Blueprints
- Scalable Information Architecture & Design System Construction
- Organization-wide Accessibility & Inclusive Design Advocacy
- ROI Analysis, KPI Tracking & Executive Reporting

User-Centered Design

- Content Strategy
- Rapid Prototyping
- Digital Wellness Initiatives
- Complex Web & Mobile UX

Service Design

- Service Blueprinting
- End-to-End Journey Mapping
- Cross-Channel Experience Strategy
- Process & Ops Integration
- Stakeholder Co-Creation Workshops

Certifications

- Human-Computer Interaction (HCI) for AI Systems Design
- UX Management: Strategy and Tactics
- Conducting Usability Testing

EXPERIENCE

UX Designer

WALL STREET ENGLISH

from Sep 2018 to Feb 2021, 2.5Yrs

- Led UX strategy & research for for the company's global Course LMS platform across 20+ regions, balancing scalability with cultural nuance and user accessibility.
- **Transformed digital classroom UX** by crafting immersive learning experiences, driving deeper student engagement and retention.
 - **Built & standardized a modular UI design pattern library**, reducing rework and ensuring UI consistency across platforms.
 - **Conducted end-to-end user research**, including usability testing, interviews, and heuristic evaluations to uncover user pain points and streamline the learning journey.
 - Collaborated closely with product managers and developers to integrate feedback loops and enhance cross-functional execution.
- Business & User Impact:**
- **Boosted course completion rates** by reducing cognitive load in content navigation.
 - **Improved system-wide consistency**, accelerating development timelines and onboarding.
 - **Elevated accessibility**, enabling inclusive experiences for global learners.

UX Designer

SPI-GLOBAL

from Apr 2017 to Aug 2018, 1.5Yrs

- Worked alongside the UX Architect to conceptualize and execute UX strategies for publishing, gamified learning, and multimedia platforms.
- Created **wireframes, prototypes, and high-fidelity mockups** for e-learning modules, **responsive web products**, and **hybrid mobile applications**.
 - Ensured alignment between user needs and complex business requirements by applying user-centered design methodologies.

Media Developer

DEXLER

from Apr 2014 to Mar 2017, 3Yrs

- Designed multilingual e-learning courses and HTML5 web apps.
- Developed interactive animations and synchronized media content using Adobe Animate CC.
- Optimized content for cross-platform compatibility and localization standards.

Graphic Designer

LASERWORDS

from Jun 2011 to Mar 2012, 1Yrs

- Contributed to **blended learning app design** and **gamification** features for **education** and **e-commerce** platforms.
- **E-commerce solutions** and **online games** for both the customer and business facing side for desktop, tablet and mobile devices.

EDUCATION

Diploma in Electronics and Communication Engineering

Sri sai ram polytechnic college

fromApr 2005 to May 2008
